

LATEST FINGERPRINT DEADBOLT RELEASED BY COVETEK

Model BFS-310

At last, the same high-tech fingerprint security access with top quality solid metal construction, that commercial users have enjoyed, is now available for domestic use at greatly reduced prices.

Covetek can now supply a unique Fingerprint Deadbolt that allows you to retain your existing door furniture, and just add-on this latest technology security access product by simply drilling one 35mm hole. Yes, it comes in a choice of silver or gold trim to suit any décor and is not only simple to install, but has very simple operations supported by visual and audible indicators to guide you.

Apart from the ultimate security and convenience of fingerprint access, the BFS-310 is loaded with user friendly features: -

- * It runs on 4 AA batteries that could last a year and has a low battery warning.
- * If you neglect to change batteries, it has 2 terminals underneath that you can rest a standard 9V square battery against, to gain power for entry.
- * You can enroll up to 99 fingerprints and delete them when you wish.
- * Fingerprint data is permanently stored in flash memory, even if power is lost.
- * You can set a master PIN code (4 to 12 digits), which could be used for emergency access.
- * This Deadbolt self locks 5 seconds after the door being closed.
- * It has an open/close push button on the inside, which especially suits the aged and arthritis sufferers.
- * You can also temporarily remove and then reinstate up to 20 fingerprints at a time. This is useful for allowing regular temporary access, such as for a cleaner.
- * It even has its own shrill alarm in the event your door is forced open.
- * This product is CE and FCC approved.

With the BFS-310, you never have to worry about carrying keys or any other entry devices – **your finger is your key!** Never again will you be locked out or have to worry about lost or stolen keys or replacing your locks. This simple but effective innovation gives you peace of mind and is reliable, the ultimate in security and convenience, and saves money on key and lock replacements or locksmiths - all for just \$449.00 including GST.

This product is excellent for the home, flats, villas, retirement villages, storerooms, B&B's, rental properties - actually, anywhere that keys and the like are a problem or you just want the best access security for your family and guests.
